

SPOOL UNWINDER

SAVING TIME BY
SIMPLIFYING PROCESSES

REQUEST A
SAMPLE TODAY!

Featuring non-powered spool unwind with tension control for traverse wound spooled double coated tapes and silicone coated release liners in a fixed straight line for the next process.

Spool Unwinder

- Ideal for customers who are not set up to unwind spools
- Smoothly installs into most production lines, easily attaching to machines for streamlined use
- Eliminates costly downtime for splices and changeovers
- Unique web path for precise web positioning
- Low cost

Technical Info

- Designed for excellent performance with spools up to 4-7 times longer than rolls
- Dancer roller/tension controller for adjustable tension
- Accommodates a variety of spool sizes, from 0.5" to 1" wide and 10,000' up to 40,000' in length
- Suited for continuous or stop and go production
