

**Infinity Tapes** *infinite possibilities*

A  **DURACO**, SPECIALTY MATERIALS COMPANY

**PRODUCT CATALOG**

***Customer + Product + Quality = Infinite Possibilities.***

# Our Mission

*Infinity Tapes is committed to providing a consistently high quality product supported by the best possible customer service experience...*

## **Customer + Product + Quality = Infinite Possibilities**

### **Customer:**

We value the trust of you, our Customer. Our goal is to maintain that trust and meet all your tape application needs. Together, the possibilities are infinite!

### **Product:**

From Double Coated to Transfer Tapes, Tamper Evident Tapes to Release Liners, we believe every customer may have unique product requirements. We are here to assist you in determining the best Product for your application.

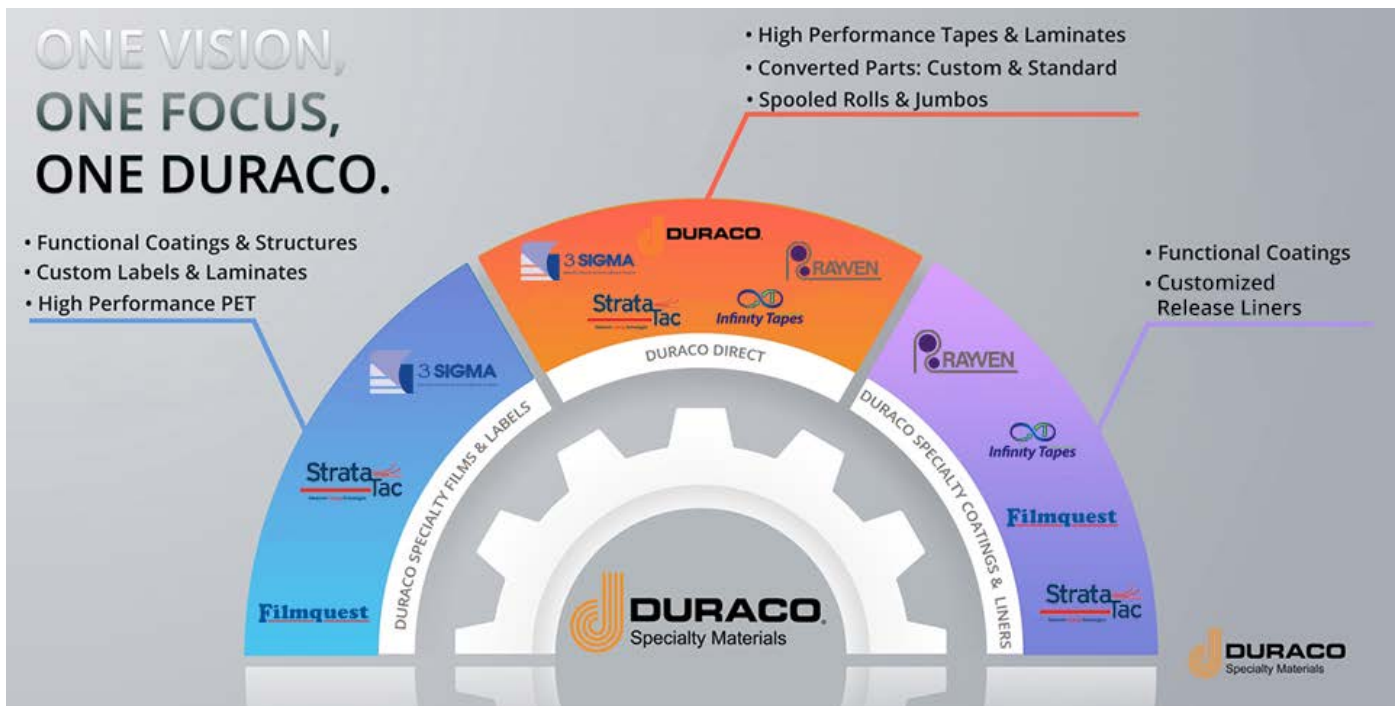

### **Quality:**

Our standard is to manufacture and supply our customers with the highest Quality products and customer service.

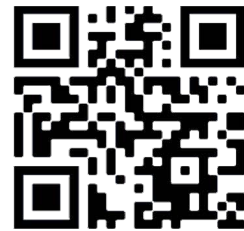

## FIVE COMPANIES, ONE VISION ONE FOCUS, ONE DURACO

Duraco Specialty Materials and its three business units – Duraco Direct, Duraco Specialty Films & Labels, and Duraco Specialty Coatings & Liners – is dedicated to meeting the unique needs of our customers with best-in-class service and responsiveness.

## ABOUT DURACO SPECIALTY MATERIALS

### OVERVIEW

- 75 years in service
- 300+ employees
- 6,800 customers

### MANUFACTURING

- Duraco HQ: Forest Park, IL
- Filmquest: Bolingbrook, IL
- Infinity Tapes HQ: Lawrence, MA
- 3 Sigma: Troy, OH & Lancaster, OH
- Rayven: St. Paul, MN & Owatonna, MN
- Strata-Tac: St. Charles, IL

### ADVANCED WAREHOUSING

- Forest Park, IL
- Lawrence, MA
- Los Angeles, CA
- Mississauga, Canada

### CAPABILITIES

- Coating, laminating, slitting, die-cutting, and custom conversion
- R&D, design engineering, quality, and regulatory compliance
- Advance warehousing and fulfillment support
- Same day shipping

### BROAD, ESTABLISHED CUSTOMER BASE

- Transit packaging and e-commerce, flexible packaging, point-of-purchase (POP), decorative and consumer, general distribution, general industrial and construction, graphics and communication, healthcare, OEM manufacturing, specialty label

# DOUBLE COATED TAPES

## PAPER LINER TAPES

Double Coated Tape with a polyester and/or tissue carrier and silicone coated paper release liner

- Quick stick bond and holding properties to paper and plastic including a number of low energy surfaces such as high density polyethylene (HDPE) and polypropylene (BOPP)
- Finger Lift (Extended Liner) edge for ease in removal of release liner.
- Available with a permanent adhesive on both sides or a permanent adhesive on one side and a removable repositionable adhesive on the other

### PAPER LINER TAPE PRODUCTS *(Adhesive & Carrier Thickness typical values)*

DF55 (3.1 mils) Liner Side Adhesion: 92 oz/in, Exposed Side Adhesion: 71 oz/in

General Purpose Permanent with Polyester Carrier

DF65 (4.5 mils) Liner Side Adhesion: 123 oz/in, Exposed Side Adhesion: 71 oz/in

Permanent High Performance with Polyester Carrier

DF56 (3 mils) Liner Side Adhesion: 23 oz/in, Exposed Side Adhesion: 71 oz/in

Resealable with Polyester Carrier

DF58TDE (3.6 mils) Liner Side Adhesion: 92 oz/in, Exposed Side Adhesion: 71 oz/in

Permanent with Tissue Carrier

DFBXTDE (6.5 mils) Liner Side Adhesion: 202 oz/in, Exposed Side Adhesion: 116 oz/in

Permanent for Box Enclosures

DF81TDE (3 mils) Liner Side Adhesion: 90 oz/in, Exposed Side Adhesion: 90 oz/in

High Performance for mounting Shelf Talker Labels

DF25TDE (3 mils) Liner Side Adhesion: 100 oz/in, Exposed Side Adhesion: 90 oz/in

Utility Grade for mounting Shelf Talker Labels

## PLASTIC LINER TAPES

Double Coated Tape with a polyester carrier with a silicone coated White BOPP release liner

- Tape is Hot Knife Cuttable
- Quick stick bond and holding properties to paper and plastic including a number of low energy surfaces such as high density polyethylene (HDPE) and polypropylene (BOPP)
- Finger Lift (Extended Liner) edge for ease in removal of release liner.
- Available with a permanent adhesive on both sides or a permanent adhesive on one side and a removable/repositionable adhesive on the other

### PLASTIC LINER TAPE PRODUCTS *(Adhesive & Carrier Thickness typical values)*

HKC67 (3.1 mils) Liner Side Adhesion: 92 oz/in, Exposed Side Adhesion: 71 oz/in

General Purpose Permanent with Polyester Carrier

HKC65 (4.5 mils) Liner Side Adhesion: 123 oz/in, Exposed Side Adhesion: 71 oz/in

Permanent High Performance with Polyester Carrier

HKC91 (3 mils) Liner Side Adhesion: 21 oz/in, Exposed Side Adhesion: 71 oz/in

Resealable with Polyester Carrier

HKC71 (2.1 mils) Liner Side Adhesion: 8 oz/in, Exposed Side Adhesion: 13 oz/in

Economical Resealable with Polyester Carrier and BOPP Liner

HKC72 (2.1 mils) Liner Side Adhesion: 8 oz/in, Exposed Side Adhesion: 13 oz/in

Economical Resealable with Polyester Carrier and HDPE Liner

# TRANSFER TAPES

## PAPER LINER TAPES

Permanent unsupported adhesive transfer tape with a paper release liner

- Quick stick bond and holding properties to paper and plastic including a number of low energy surfaces such as high density polyethylene (HDPE) and polypropylene (BOPP)
- Finger Lift (Extended Liner) edge for ease in removal of release liner
- Custom printing with customer specified wording and/or bilingual or trilingual language available

### PAPER LINER TAPE PRODUCTS *(Adhesive & Carrier Thickness typical values)*

T671 (1 mil) 42# Printed Red SCK Paper, Adhesion: 95 oz/in

Permanent General Purpose Economical Transfer Tape

T671H (1 mil) 42# Printed Red SCK Paper, Adhesion: 95 oz/in

Permanent General Purpose Transfer Tape for Graphic Printers

T672 (2 mils) 42# Printed Red SCK Paper, Adhesion: 125 oz/in

Permanent General Purpose Economical Transfer Tape

T678 (1.5 mils) 42# Printed Red SCK Paper, Adhesion: 108 oz/in

Permanent General Purpose Transfer Tape

T677 (3.5 mils) 42# Printed Red SCK Paper, Adhesion: 143 oz/in

Permanent High Performance Transfer Tape

T680 (1.5 mils) 42# Printed Blue SCK Paper, Adhesion: 7 oz/in

Resealable Transfer Tape

## PLASTIC LINER TAPES

Permanent unsupported adhesive transfer tape with tinted blue polyester release

- Hot melt adhesive provides quick stick bond and holding properties to paper and plastic including a number of low energy surfaces such as high density polyethylene (HDPE) and polypropylene (BOPP)
- Finger Lift (Extended Liner) edge for ease in removal of release liner
- Custom printing with customer specified wording and/or bilingual or trilingual language available

### PLASTIC LINER TAPE PRODUCTS *(Adhesive & Carrier Thickness typical values)*

PT771 (1 mil) Adhesion: 95 oz/in

Permanent General Purpose Economical Transfer Tape

PT777 (3 mils) Adhesion: 143 oz/in

Permanent General Purpose Transfer Tape

PT774 (4 mils) Adhesion 143 oz/in

Permanent High Performance Transfer Tape

# TAMPER EVIDENT TAPES

## HIDDEN GRAPHIC TAPES

A line of Tamper Evident Tapes and Label stock designed to leave a message behind when removed from the plastic bag, corrugated box, or object it is applied to

- When violated, a Hidden Graphic message appears
- Tapes are Freon, dry ice resistant, moisture and elevated heat resistant – Hidden Graphic message is revealed
- As a film with adhesive and release liner, the product is available with Paper or Plastic Release Liners
- Custom Hidden Graphic messages available

## TAMPER EVIDENT TAPE PRODUCTS

Polyester Tamper Evident Tape

HG53-1 Hidden Graphic Film with No Adhesive

HG53-2 Hidden Graphic Film with Adhesive on Paper Liner

HG53-3 Hidden Graphic Film with Adhesive on Plastic Liner

Heat Sealable Tamper Evident Film

HG63 Hidden Graphic HDPE Film with No Adhesive

Selfwound Tamper Evident Tape

SWHG Hidden Graphic Polyester Film with Adhesive

Tamper Evident Label Stock

LABELS Hidden Graphic Film Label Stock

# RELEASE LINERS

## Polypropylene/BOPP

When your application calls for a high strength release liner, our **Polypropylene Liners** give you:

- Increased strength due to the biaxial orientation
- Different thicknesses to fit your specific needs
- Standard clear or opaque white
- Standard as well as custom printing... you decide
- Metalized anti-static polypropylenes available

### POLYPROPYLENE (BOPP)

Clear, white, or metalized film coated on one side with our easy release silicone coating

#### POLYPROPYLENE/BOPP PRODUCTS

##### PP502

Clear BOPP Silicone Coated Film

##### PP401.6

White BOPP Silicone Coated Film

##### PP701.2

Metalized Silicone Coated Antistatic Film

#### ATTRIBUTES

- Available In Clear, Clear Printed, White, Metalized (Anti-static)
- Higher Temperature Resistance Than Hdpe
- Compatible With Wide Variety Of Adhesives
- Superior Easy Release Properties (UV Cured Silicones)
- Standard Printing (Remove Liner To Expose Adhesive)
- Bilingual And Trilingual Standard Print Available
- Custom Printing
- Colored Printing - Red, Blue, Black, or Custom
- Coated one side silicone (c/1/s) or coated two sides silicone (c/2/s)
- Widths: Slit From 1/2" To 48"
- Flat Roll Lengths: Up To 16,400'

## High Density Polyethylene/HDPE

When your particular application requires a release liner with extra strength and durability, we recommend our **High Density Polyethylene Release Liners**. High Density Polyethylene Release Liners available in:

- Different thicknesses to fulfill all your production requirements
- Natural and color-based films available
- Silicone coated on one or two sides
- Standard and custom printing available

### HIGH DENSITY POLYETHYLENE/HDPE

Natural or White High Density Polyethylene (HDPE) Film coated on one side with our easy release silicone coating

#### ATTRIBUTES

- Available in Natural, Natural Printed, or White
- Compatible with wide variety of adhesives
- Superior easy release properties (UV Cured Silicones)
- Standard Printing (Remove Liner to Expose Adhesive)
- Custom Printing
- Colored Printing - Red, Blue, Black, or Custom
- Thickness from 1 mil
- Widths: Slit from 1/2" to 48"
- Flat Roll Lengths: up to 16,400'

#### POLYETHYLENE/HDPE PRODUCTS

*Available in natural, natural printed, colored*

##### HPE202

Natural Silicone Coated Film

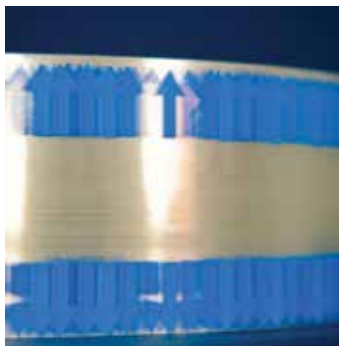

##### HPE202

White Silicone Coated Film

# RELEASE LINERS

## POLYESTER/PET

### POLYESTER/PET PRODUCTS

#### PET901

Clear Silicone Coated Film

#### PET901 Metalized

Silicone Coated Antistatic Film

#### PET901 MatteMetalized

Silicone Coated Antistatic Film

#### PET901 White

White Silicone Coated Film

#### PET901.5

Clear Silicone Coated Film

In addition to extra strength, flexibility, and degree of customization, our **Polyester Release Liners** provide the highest degree of heat resistance of all our plastic release liners. You can enjoy:

- Different thicknesses for increased design flexibility
- Standard or custom printing provides you more value to offer your customers
- Metalized anti-static polyester available
- Silicone coated on one or two sides

### POLYESTER/PET

Polyester (PET) Clear, White, Matte or Metalized Film coated on one side with our easy release silicone coating

### ATTRIBUTES

- Higher temperature resistance than BOPP or HDPE
- Thickness from 1 mil
- Coated one side silicone (c/1/s) or coated two sides silicone (c/2/s)
- Widths from 1/2" to 48"
- Compatible with wide variety of adhesives
- Superior easy release properties (Thermal and UV Cured Silicones)
- Standard Printing (Remove Liner to Expose Adhesive)
- Custom Printing
- Colored Printing - Red, Blue, Black, or Custom
- Flat Roll Lengths: up to 16,400'

## PAPER

### PAPER PRODUCTS

#### RL42#

42# Silicone Coated Paper

#### RL53#

53# Silicone Coated Paper

**Paper** release liners give you the flexibility and ease of use that are necessary aspects of cost containment in today's fast paced and demanding production environment. In order for you to achieve your production goals on many levels, we offer:

- 42# and 53# paper weights available to fulfill individual and custom applications
- A release value to match your need, from easy to tight
- Standard and custom printing available
- Silicone coated on one or two sides

### PAPER

Bleached Super-calendered Kraft (SCK) paper coated on one side with an easy release silicone coating

### ATTRIBUTES

- 42# & 53# Stock Available
- Printed or Unprinted
- Coated one side silicone (c/1/s) or coated two sides silicone (c/2/s)
- Widths from 1/2" to 48"
- Compatible with wide variety of adhesives
- Superior easy release properties (Thermal Silicones)
- Standard Printing (Remove Liner to Expose Adhesive)
- Custom Printing
- Colored Printing - Red, Blue, Black, or Custom
- Flat Roll Lengths: up to 16,400'

# CUSTOM SOLUTIONS

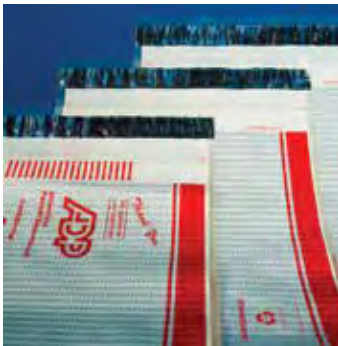

## Infinity Tapes can save you time and money.

Infinity Tapes has a long history of producing a high quality line of standard adhesive tapes and silicone coated papers and films. With our diverse converting capabilities, we do not need to rely on outside converting operations to manufacture our products. As a result, we have the capability to create, reconfigure and modify to develop the exact solution to fit your need.

We offer a wide range of converting capabilities:

- Flexographic Printing
- Silicone Coating
  - ▶ Thermal
  - ▶ UV
  - ▶ Widths up to 48"
  - ▶ Roll diameters up to 50"
- Hot Melt Adhesive Coating up to 40"
  - ▶ Flush Coat full web width
  - ▶ Zone Coating multiple width capabilities
- Slitting
  - ▶ Razor
  - ▶ Shear
  - ▶ Crush Cut
  - ▶ Widths from ½" to 48"
- Spooling
  - ▶ 2 – 16 position spoolers
  - ▶ ¼" to 1" tape and liner widths

**Customer + Product + Quality = Infinite Possibilities**
